- My child is very happy
- No nothing. Very happy with the school
- No, my son is very happy and challenged
- No. I feel GSMNC are doing a great job supporting the children.
- I don't have suggestions as my child has just completed his first few months. But I am delighted with the level of communication we receive from his teacher múinteoir X
- My child is very happy in the school. He's very confident and secure in the environment. I don't believe there's anything the school is failing to provide for him personally
- No. The school has and continues to be a safe and happy place for my children. I have only positive things to say of the school, the management and the teachers.
- No, I don't think as a school you could do anymore. Just a point to note, the primary responsibility of well-being sits with the parents, a school you can only do so much.
- I think school and teachers do a fantastic job of ensuring students' wellbeing. It's greatly appreciated.
- Continue with movement breaks. Hugely important for regulation. Possibly breathing and simple meditation techniques
- We are new to the school, and the children are enjoying it. Thanks to teachers & staff for giving such a good welcome. Seems a very good school.
- The school calendar is a fantastic tool and greatly appreciated but some of these activities are not always listed on the calendar.
- Walks and after school clubs like chess and kids playing games in smaller groups a great idea in helping them to get to know each other better. Thanks for all the kindness your staff show to the students.
- I feel you are doing a great job. My children are overall happy to go to school. I am able to connect with their teachers if I have any concerns. Hopefully, they will connect with me if they have concerns.
- I feel that my children enjoy going to school. The support from their teachers, especially X has been outstanding this year. She has gone above and beyond to understand my child's need. She gets what it's like to be a parent and we feel no pressure from her just understanding. This is also reflected in my child's comfort and well being at school and reflected at home. Thank you X.
- I think the school does its best in this regard and I haven't got any particular ideas. Over the years I have had a very good experience from many teachers in how they have taken care of my children. I think different children need different levels of help and trying to identify those children who need a bit more help and support, not academically but as regards overall wellbeing at school is something that would be worthwhile. Thank you.

- A very good school with children encouraged to reach their potential and parents encouraged to participate in their child's education. Strong values which are evident across the school. Good discipline and children are aware of the boundaries.
- Múinteoir X is a fantastic teacher and her understanding and caring for each child's needs should be a model used by all teachers. Every parent I have spoken to feels that their child is deeply understood. I have never seen this before with any other teacher.
- The teachers are just so busy (understandably) that even if there is a child who has a problem during the school day they may feel they can't share it with Múinteoir if they see he/she is busy with other children. We have never had to use 'Handle with Care' but it is good to know that it is there for parents. We are so grateful for all the teachers do.
- I think the school life provided to my daughter is excellent and she thoroughly enjoys school. The range of activities provided (in the classroom and outside classroom) are very varied and well-structured. Credit to all teaching and support staff for their efforts in creating such a welcoming and engaging environment for our children.
- Múinteoir X is wonderful and a credit to the school. All the teachers seem very approachable and we are delighted overall. Our son feels safe in the Gaelscoil and he mentioned yesterday that he prefers the Gaelscoil more than his preschools! He loves speaking Irish. I don't know if all children have access to the sensory room but I think that occasional access, even for those without specific diagnoses, might help, though I'm not sure how practical that would be. Thanks for everything.

- I don't have anything additional to suggest as I feel like the staff at the school do an excellent job every day in supporting the wellbeing of our children. There is a fantastic culture in this school and everyone involved should feel very proud of that.
- I believe GSMNC is a great school with a modern mindset and approach, the school is a credit to X and all the teachers, keep doing what your doing, thanks.
- Lán sásta le cad atá ar súil
